

Limeade Interactive™ delivers smart, social interactive technology that fits how people work today. It's a video and quiz product that makes it easy for employees to improve physical, financial, emotional and work well-being. Bite-sized videos inspire employees to check out relevant content and integrated quizzes help test their knowledge. And on-demand dashboards show employers how an interactive approach boosts program participation.

## Key features & benefits

- ✓ **Dynamic content**  
Transform video and presentations into targeted well-being experiences that educate and inspire employees
- ✓ **Interactive quizzes**  
Reinforce core concepts, aid retention and assess comprehension with post-challenge quizzes
- ✓ **On-demand dashboards**  
See how people participate in key interactive challenges and measure impact on employee engagement

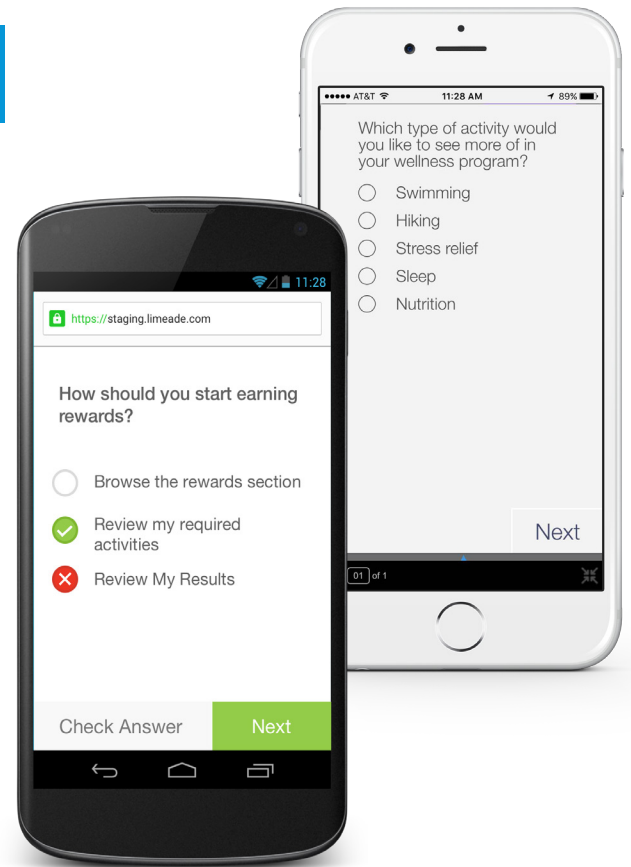

## Supercharged wellness programs

Employers can make Limeade Interactive their own by creating relevant, dynamic content and using surveys and insights to build a program employees love.

With Limeade Interactive, employers could:

- ✓ Enhance employee knowledge with healthy eating demonstrations, simple desk stretches or meditation sessions
- ✓ Share stories that highlight remarkable well-being successes
- ✓ Demonstrate organizational support for well-being with executive-sponsored video challenges

Limeade is a corporate wellness technology company that improves employee health and well-being in ways that energize culture. Limeade focuses on two critical elements to make behavior change stick: a whole-person approach and organizational support for well-being. Using the Limeade platform, employees earn points and rewards for taking steps to improve, while employers move the needle on their business goals.

### Why Limeade works

#### Reach more people

with culturally relevant & engaging programs

#### Inspire change

in health & well-being with the most personalized experience

#### Move the needle

on key performance metrics connected to well-being
